

YOUR STORY. MADE HERE.™

NORTHEAST INDIANA is a region on the move. Our narrative is changing, and it's changing because so many of our stories are being Made Here. And with the compilation of these inspiring stories, the culture begins to shift. While we've always been hard-working and family-friendly, this region realizes those are not our only positive attributes worth highlighting. We're embracing and celebrating our proven ability to provide challenging professional opportunities and an incredible quality of life to match. From outdoor activities to cultural diversity, peace and quiet to rock and roll, Northeast Indiana has the assets you need to write the next chapter—a better chapter—of your story.

In this corner of the heartland, more of our people are making a great living and a great story to go along with it. Here, you set the pace for living your life. You can live up in the skyline or out in wide-open space. You can escape to the lakes or indulge in history. Whether it's your favorite band on a weekday night or farm-to-fork five-star dining in a country setting you're after, you'll find it in Northeast Indiana.
